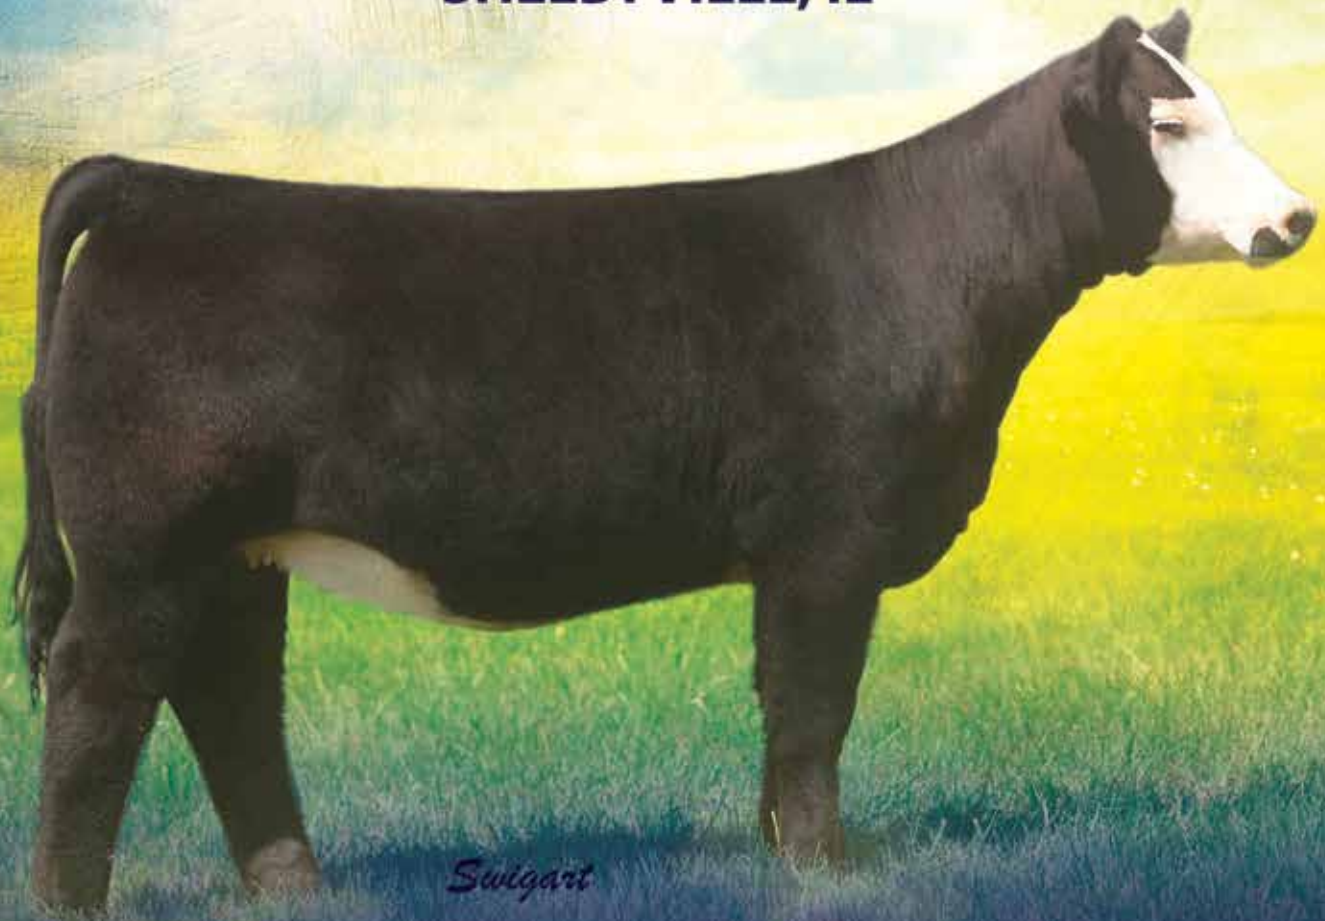
2018 ILLINI Elite

SUNDAY, SEPTEMBER 16, 2018 • 2:00 PM CENTRAL
SHELBYVILLE, IL



SELLING HEIFERS, BRED FEMALES, ELITE DONORS AND EMBRYOS.

Welcome...

On behalf of Rincker Simmentals and the Illini Elite Consignors we would like to welcome you to our 13th Annual Illini Elite Sale. It has been a privilege for our family to watch the growth in this annual sale and to witness the commitment from the sale's consignors to each year find ways to make the genetic offering better and improved from the previous year's sale. Whether it be viewing Sim/Genetics cattle at a show or watching the SimInfluenced herds across the country, we continue to feel excitement for the real progress being made in both the phenotype and acceptance of our breed's cattle but also their genetic profile and carcass merit improvements. No doubt the time is right to offer what I believe is the best set of cattle ever offered at an Illini Elite Sale with the growing need and demand for quality cattle and high end genetics.

What an exciting set of cattle being offered by our Illini Elite consignors! As you get the chance to look at the heifer calf pictures and videos, you will find current genetics in heifers that phenotypically bring their "A" game and they will compete! With next year's AJSA National Classic being hosted just 4 hours away, this "Elite" September sale provides an excellent opportunity to lock in those first place and Champion "big time" females early. Study the matings that made these heifer calves so stellar and you will find great sire and dam selection from great breeders. No doubt, you will also come across donor prospect heifers from these established donor dams and sires mated purposefully.

The bred division of females will be preceded by an exciting set of embryos that again are "cutting edge genetics" and can provide their new owner with high end and competitive offspring. The 2018 Illini Elite offers you the opportunity to purchase genetics from matings with solid pedigrees from current elite sires on the top side and tremendous cows, many of whom are working as donors on the bottom side. Black Diamond Genetics and Breezeway Simmentals is offering some of their elite SimGenetics when they offer for bidding their herd's primary donor dam, KLS/KKK Skittles, their 2010 AJSA National Champion Cow. What a great opportunity here! She will be followed up with Illini Elite's best set of bred's to date and I can safely say that these heifers were mated up masterfully and sticking to their A.I. dates.

Our sincere congratulations to all of our past customers and the successes you are having with purchases from Illini Elite. Your success make us proud to be involved in this industry. We would be remiss not to mention that we don't do this alone and want to thank Zach Day for his Sale Cattle Management work, Emily Ivey for her extensive Herd Consulting effort throughout the year, and the many Lake Land College students interning here assisting where needed. I want to also thank our sale consultants Roger Allen, Larry Martin, Greg Miller, David Guyer, Doug Parke, Ryan Haefner, and Adam Swigart for providing their time and effort to communicate with all of you regarding this set of cattle. Find their contact numbers on the next page and most certainly use their expertise. We hope you join us September 16th to see this offering and a chance to join in on the history of the Illini Elite Sale!

LOT 6 FROM THE 2017 ILLINI ELITE
Congratulations Houston Ferree, Sullivan, IN

Best Regards,
Curt and Brent Rincker

"Fascination" will be your reaction when you get your eyes on 350F. Those cattle that are sometimes just a little bigger in the ring certainly won't get lost in the lineup, especially when they are as solid and good as this one is. This 3/4 baldy competes with the low percentage females in a big way with her striking white flank and bald face to her extended, and big body. I have always liked this one and you can't always say that but it's her blend of Broker and 77Z that makes this one excel when she walks into her stance. Owning a heifer of this caliber and look will always keep you in the running for the purple!

Primrose is our kind of female. We like the fact she is very complete and hard to punch a hole in with a wonderful disposition. Maternal appearing is the simplest way to describe this ¾ female as F504 offers plenty of body shape with a smooth muscle pattern and outstanding structural build. Her mother, a Sure Bet daughter, never disappoints at weaning time producing a top performer and this is no exception as this one leads the way for WDA. She is one of the first Lover Boy calves for us and we will use him again. He is a full brother to Quantum Leap, giving her a shot of Right to Love 015U in the pedigree.

The 77Z donor just has not failed on the Broker mating. These cattle are extended and have plenty of rib shape and curvature to the rib. This heifer looks amazing at the stop-long topped, long fronted, and big boned. Don't forget that Walker Housley, TN, showed her sister in 2017 and found her way into the backdrop on numerous occasions. She a full sister to the two baldies, Lots 1 and 8 and it is my belief that this one fed right, will be in the backdrops as well! Most definitely here is a donor ready to move her next owner to the next level!

F829 has a lot of potential as she brings loads of performance and cow power. Her mother is a beautiful 10-year-old cow sired by a full brother to FC No Joke that changed our program. Her maternal grandmother was a past champion in the Jr Show at IL State Fair so there is predictability on both sides. This one is plenty stout with extra power and body but handles it well on the move and has the look that you would expect from a Relentless female.

Be advised this one will make you look. Nicolette F613 is the catalog cover picture, an eye-catching baldy that is striking from the profile and screams show heifer. This one is wild necked and blends well into her shoulder while having a great top line and tail head giving her a stunning outline that you expect from a Loaded Up. She also goes well on plenty of bone and turn to her rib and appears to have enough cannon to not play-out too early. This female is kid broke with a bright future and is backed by the famous Oval F Nicolette to enhance her earning potential. Already a proven winner, she was popular at the Illinois State Fair and was the Calf Division Champion at the Open Show!

"Full Figures" came together on paper with her above average indexes but importantly she balances well with enough shape and quality. I have always believed that this one, as she continues to bloom, will make a quality show heifer and just a great cow stemming from a SAV Angus Valley x Built Right dam. The farm's visitors tend to find this one and get her on their list. Oh, and you will also like and appreciate her extra bit of extension and chiseled front end!

This Hairietta Donor dam is really showing her flexibility here. Straight out of the Denver Champion Pen of Bulls, we opted to flush to TKCC Carver and he really proved his worth here with this wide constructed, yet feminine heifer. It is hard to find cattle that have body yet keep their lines but 225F did it well! One of the widest and soundest tracking females in our calf crop with plenty of bone and heal. I like this one's build and performance and no doubt 225F can compete at any level you need her to!

This is a 'big time" female and I would not want to show against 112F in the percentage shows. I think this one has gathered herself early and impresses me with her look at the 3/4 view due to her blend of length and shape. Just an attractive, big female, that will get out there and not be out-profiled. She is long haired, good topped, and big boned without being course. Her Salute dam does it again! We think "Faithful" will make a stellar female and donor! It's nice when they start out good!

We were super excited when this Relentless X HILB Beauty and Grace heifer calf hit the ground and she has far exceeded our expectations. This baldy has been a favorite of many with her natural depth of body and rib shape, stellar profile and she moves with plenty of flexibility. Her dam is really cranking them out producing the second high selling bred heifer in last years sale and a maternal sib to Lot 50. Beauty was recently named Reserve heifer calf champion at the 2018 Simmental Breeders Sweepstakes open show and Reserve Calf Champion at the Illinois State Fair Open Show! Seller reserves the right to 2 flushes with a minimum of 3 transferable embryos per flush at the seller's expense and buyer's convenience.

This Antoinette is hands down one of these best specimens to come from the NAILE Champion X403. This 3/4 blood Simmental has donor cow prospect written all over her and just screams money maker! I could write a book on where this heifer excels but I'll keep it simple. I can honestly tell you she is as flat good as that picture. This heifer alone is worth the drive to Shelbyville so get the family in the car, buckle up, and enjoy the ride because this heifer is going to keep you in the driver's seat!!

UNIQUE! This is how we describe "Miss Cindy" Only the 2nd natural calf from our young, up and coming donor, JPLF/RBS "You're It". Her future looks bright. For a purebred, "Miss Cindy" is unique in her composition, really extended in her front 1/3, clean jointed, long spined, sound at the ground, and shows us her capacity in her rib shape. "Miss Cindy" also gives us a nice balance both phenotypically and on paper. Her dam is the flushmate sisterto JPLF/RBS "You're the One" who is the mother of Tucker Bayer's many time champion purebred of the 2018 show season and was 6th Overall Purebred at Junior Nationals in July. We feel "Miss Cindy" can compete in a big way and offer endless mating opportunities and profit generating possibilities.

I felt really positive about this heifer when I saw her at birth, solid black and nice! Uniquely, this was What a Girl's natural calf and she never went through any rough stages in her development so she has literally been one of my favorites and looked the part everyday! Smooth made, deep enough, adequate muscle and top shape. Then when you put this one in motion, she takes a long and athletic stride and her gait has give and reaches straight ahead. I like her long hair, I appreciated her size, and I admire her completeness. As the name goes, she's "Fabulous"! The Reserve Grand Simmy at the Indiana State Fair was purchased in last year's sale by Houston Ferree and was also out of What A Girl.

"Felicity 532F" is a first calf by our new Dixie Erica x Broker donor and talk about a job well done! It is difficult to get the blend of rib shape and softness of center but this "Silveiras Style" sired calf was most certainly able to do that and more. This one moves with grace when she grabs the grass or dirt surface so you can only imagine her on the tanbark! This is just a striking, good bodied, balanced female that will most certainly compete in her age group!

The Rudow Lady Arbitrator dam produced a complete one here and I just keep explaining to our visitors, who wouldn't want a cow like this "100F" is going to be! Lots of body and rib shape helped name this one "For Real" but she still has so much soundness to her joints and just has the right angles and yet she balances. This one projects some longevity with her complete look and problem free skeleton.

We have offered some good red ones in this sale in the past and here is the 2018's edition. This February female is a perfect striking red color with soft hair and a cool look. She also provides extra bone and foot size with a big hip to compliment her good looks with nice blend of depth and shape. Her best days are down the road but the potential is obvious. She is sired by our No Wonder son and the cow is a Mo Magic that has had more than one make this sale.

We did a Bottomline flush on 77Z resulting in this long patterned, pretty baldy heifer. "Farrah" was striking at birth and has continued to impress with her sleek lines, extended front end, and chiseled look at the profile. 24F has a far reaching and flexible stride when she goes so I expect this one to compete in the low percentages, and stay sound and add value as an eventual replacement! The 77Z's certainly make great mamas!

414F is another solid blend for Hairietta and Relentless producing this long necked, big topped female. Again this is one of the two full sister's to the Champion Low Percent Heifer at the 2018 ISA Preview show for Leslie Walker! I feel like 414F can also compete at the same high level as Leslie did with her sister 275E. 414F has plenty of bone and yet excells in her length of body and front end. Hairietta 414F will make an outstanding female for anyone's front pasture!

I was observing this heifer when Adam Swigart was picturing and thought to myself that someone was going to get a very nice heifer and cow when they got 523F. "Five Star", as we call her, is just a real complete, no nonsense kind of heifer that extends at the profile with enough top shape to compete. Her Carver sire gave her a long, clean neck, and yet has some bend when she goes. What a Girl is a tremendous donor so getting this one will mean a lot to the showstring and eventual herd.

Well to say the least, Bottomline worked on this mating with What a Girl! Wow, talk about a pleasing heifer with some body, quality, and top shape! I knew this heifer was good at birth but she has kept pouring it on and has really evolved into a nice, complete one that is non-contraversial in her body type and kind and she gives you that good leg at the standstill with adequate give when she goes. "Fantasia" is fantastic and will most definitely get you in the purple!

Just a beautiful young March heifer out of our new donor dam, HPF Right To Love B320. This one finds herself on everyone's short list with the kind of early power she displays and yet still retains soundness and no doubt a great front end. I can't say enough about her natural base width and combined tidiness upfront that make you give her picture and her real life silhouette, a second and third look! That will serve her well in the ring trying to find the hole in this elaborate young shapely female. She is a big puppy dog and great with our kids.

Shelby's mother is a direct daughter of the Moore donor WLE CNS Shelby T3335. Even though this female is just a March we have always felt this one might be as well balanced and as complete as any we are offering. She is sired by the very popular P2B who has established himself as one of the go-to sires for quality combined with genetic values. This female offers what Pays to Believe can do as she is going to be moderate with a bit more boldness and shape. The unique thing about F147 is that the cow side keeps this one sound, smoother in her design and cool fronted. She broke easy and will be ready for any level of show person.

This sale has several of the What A Girls but I can tell you this, they will all make nice show heifers and great cows! A striking baldy "Flattery" has an awesome profile and stellar top shape. I like this heifer from both the side and rear so don't be surprised if you see that same balance and shape that her donor dam What A Girl has. This would be one of those "cow family" investments that I think would be fun to show and compete with up front, and a great one to mate and flush over the coming years!

"Famous 58F" was fittingly named because of her Y58 donor dam who has been widely successful in our program since arriving here several years ago. This Relentless daughter, we think, has the donor look with her natural width and shape coupled with soundness of structure. 58F, when asked to move, gives you all the bend necessary at the ground and in her hock. The Relentless cattle were highly successful at all levels of our Simmental industry last year and appears to be a sire that will continue his good work. This is a quality purebred and I believe can compete in the showring and yet produce winning cattle herself.

I knew in 77Z's first calf crop not to underestimate her potential as a donor and that has continued to hold true as seen by 547F's balance and extension. It's nice when they have some added length of body but "Fortune" took it a step further with her longer front end and extended length of stride with more than ample cushion. The 77Z x Brokers as you can see in this offering, are good cattle, and they also greatly impress me with their rigor and shape, their width of base, and stoutness of features. This will be a nice one and will most definitely compete!

Top 20 2018 AJSA Daughter

RS Cierra was one of the high-selling lots in the 2016 Illini Elite Sale. She went on to win numerous shows including Supreme Champion Heifer at the 2016 Tennessee Junior Beef Expo. Cierra has already begun to prove herself as a high-quality donor, with her first calf, Miss PVF Echo who has won several shows and was 11th overall at the 2018 National Classic in St. Paul. Cierra will cover all the bases by making sound functional cattle that will have the added look from the side needed to compete in the show ring. We are expecting her progeny to excel in the show ring and the pasture and you should too. The mating with LLSF Pays to Believe should put some exciting calves on the ground, so don't miss the opportunity to own these genetics! Selling your choice of 3 or 5 embryos guaranteeing 1 or 2 pregnancies if work is performed by a certified embryologist.

Here is an opportunity to purchase full sib embryos to the second high selling open heifer in the 2017 Illini Elite Sale who was purchased by Marty Winkler for $9000. STCC MS Burning Steel is just starting her donor career but is off to a tremendous start. This pedigree is loaded with the dam of these embryos being a full sib to Combustible, going back to Lazy H Burn Baby Burn R34 and Steel Force 5701. Add Executive Order 8543B to the mix and get an impeccable set of EPD's. This mating produced the Reserve Champion heifer calf at the Illinois State Fair open show last year. Selling 3 embryos guaranteeing one pregnancy if implanted by a certified embryologist.

Full sib to the embryos

The more I study this female, the more I like her, and I know you will as well. Sleek necked, smooth shouldered, big middled, and a beautiful hip and tail set. She also has a perfect goggle eyed baldy face just like her grandsire Lock N Load. Additionally this beauty has 10 epds in the top 35% of the breed. The Lockdown cattle have been born easily with good growth, and her mating to W/C EXECUTIVE 187D should compliment that further. AI 4/9/18 to W/C EXECUTIVE 187D, examined safe to AI on 6/7/18, due 1/19/19. PE to JR EASTWOOD 116E 5/6/18 to 6/1/18.

This Style sired 1/2 blood is a very attractive bred. She was Marlees first show heifer and she is selling her to work on funding her next one. The female is supported on the dam side by the Hilbrand's donor Lizzys Pearl and is a female that we have always liked as she is sound with ample bone and muscle. She has enough look to raise a good one and is bred on 3- 18. She is safe to Cowboy Cut as we wanted to offer easy calving and enhanced EPD's on her first calf. She will give you a nice Christmas present.

Big time bred here. You will not find many breds that have this kind of look and quality. She is extremely well balanced and freaky long necked and perfect in the way her neck comes out of her shoulders. To go with that look she is has extra length and is as sound as you can build one with great angles and flex and muscle. He sire is a son of the great Serena which a real valuable feature in a pedigree. Aggie bred first service to the legendary Cowboy Cut on 3-24. Cowboy Cut offers proven calving ease and breed leading EPD's that can move index's several percentiles in one generation. Safe AI due Jan 2, 2019.

This pretty lady has had our attention since the day she was born. Straight from Wyatt's showbarn this One Eyed Jack heifer is a pretty dang good female. Her dam is a phenonemal Chyna Marie In Dew Time X Shock N Awe, and the Chyna name needs no introduction to the industry. Her dam will be a future donor for Wyatt. She sells bred up to Conley GCC Shocker on 5/30 no clean up bull. Vet checked safe in calf 7-29-18 to AI date.

This Stepping Stone daughter is a 3/4 sister to last year's consignment selected by Adam Sarnes. A daughter of the 2016 South Central Regional and Kentucky State Fair cow/calf champion, she has a great disposition and a beautiful presence. 253E is big ribbed, stout featured, yet feminine baldy that will be a great addition to your cow herd. AI bred 5/12/2018 to W/C United 956Y (2614725) confirmed bred to AI date by ultrasound.

This baldie faced N-Charge daughter is as deep sided as any in the offering. Her mother came from Hudson Pines and had been a constant producer for us and we are positive E69 will be for you. As the N-Charge daughters begins to enter production, they are everything we hoped they'd be and more. AI to our new, $47,000 bull, CDI Mainline 265D, #3152346 on 4/14/18 confirmed to AI date.

704E has been one of my favorite heifers to watch grow as she is a super attractive fronted heifer who is as bold spring and wide pinned as you can make one, all while still having unbelievable flex off of both ends of her skeleton. We debated on even selling this female however with the Dam and two sisters in production we decided to offer this great female. Confirmed safe AI to the $52,000 Stepping Stone bull on 6/02/2018 for a March Baby.

Sparkles is a moderate framed easy fleshing daughter out of One Eyed Jack and our Hollywood Queen donor Triple C Radiant. She is elegant in her design and fluid in her movement. Sparkles is wide based and feminine fronted. She sells bred to our exciting new superstar "Duration ". He is a United son out of a Northern Improvement x Shamoo cow. If you are looking for the front pasture kind here she is and settled first time on June 5 with no clean up bull exposure.

It's because of a successful A.I. and E.T. program that we can offer cows like this Pays To Believe daughter. Everyone knows how successful this Antoinette cow family is and a full sister was purchased by Rincker Simmentals 2 years ago and they almost doubled their money in her first calf through this sale last year!! This baldy is going to make you money whichever way you want to breed her but the first special one is going to come out of Broker. Look at the Broker sired open heifer we have in the sale this cow is carrying a full sibling in blood!! A.I. Sire: Mr HOC Broker (ASA#2531081)A.I. Date 4/27/2018

This cow has honestly never really been given a fair shot around the farm. She is sound, easy keeping, and always raises good productive calves that have been retained on the farm as I write this but she is overshadowed by her full sister 37Y, the NAILE Reserve Champion Cow-Calf that leads our donor pen. It's time for this cow to find a home that will let her shine and she is carrying a full sibling in blood to one of the most popular calves in our show string this year and I can only imagine the potential of this Bottomline calf coming!!!A.I.
